Professional Summary

Pre-final year CS student with production experience building full-stack applications using Python (FastAPI), React, and PostgreSQL, with hands-on ownership of CI/CD pipelines, automated testing, and cloud deployment. AWS Certified, with experience in asynchronous, event-driven backends, Redis caching, and secure, monitored production systems.

Education

Bennett University Aug 2024 – Jun 2028
B.Tech Computer Science and Engineering CGPA: **8.62 / 10**

Certification

AWS Certified Solutions Architect (Associate) – Amazon Web Services | [Verify] *Apr 2026*

Technical Skills

Languages: Python, C++, Java, JavaScript/TypeScript, SQL
Backend & Core Systems: FastAPI, Node.js, REST, GraphQL, WebSockets, Spring Boot, Microservices, Concurrency
Data, Infra & Testing: PostgreSQL, MongoDB, Redis, Supabase, AWS, Docker, Linux, GitHub Actions, Sentry, Jest, pytest
Frontend: HTML5, CSS3, React.js, Next.js, Tailwind CSS

Technical Experience

Software Engineer Intern | Centre for Innovation & Entrepreneurship, The Times Group Jul 2026 – Present
- Engineered **BHIMS** [Website], a CRM-style incubation management platform, on Supabase and PostgreSQL.
- Enforced role-based access with Row-Level Security, closing permissive profile-update and staff/mentor visibility gaps.
- Built the public **CIE** [Website] and Node.js REST/GraphQL APIs with JWT auth, using Redis for caching.

Full-Stack Developer | Info Capital & Logistics Co. (Freelance) Jun 2026 – Sep 2026
- Built and deployed Info Capital & Logistics' [Website] using Next.js and TypeScript.
- Integrated Neon PostgreSQL to persist customer enquiries submitted through website forms.
- Automated GitHub-to-Vercel CI/CD and documented deployment infrastructure for client handover.

Project Intern (Software Engineering) | Sequoia Insilico Pvt. Ltd. (BIRAC-Backed) May 2026 – Jul 2026
- Delivered 2 production systems in React and Node.js, refactoring the **Sequoia Insilico** [Website] frontend.
- Engineered **LifeBack** [Website], a clinical SaaS for PHQ-9 and voice-based mental health assessments.
- Architected an event-driven backend (serverless queues, object storage) to securely analyze patient audio in real-time.

Projects

PR Sentinel | Pull Request Risk Triage Platform [Website] [Repo]
Tech: React 19, TypeScript, Supabase Edge Functions (Deno), PostgreSQL (RLS), Python, GitHub Actions, Gemini API
- Built an event-driven PR analysis pipeline: HMAC-verified GitHub webhooks feed an idempotent PostgreSQL job queue.
- Combined deterministic security rules with secret-redacted LLM analysis, a 5-dimension risk score and reviewer routing.
- Shipped a React 19 dashboard on Cloudflare Pages with human-approved patches and RLS on 14 tables.

NetSentry-DPI | Multi-threaded Deep Packet Inspection Engine [Repo]
Tech: C++17, Multi-threading, PCAP, TLS/SNI, Consistent Hashing, Lock-free Design
- Built a flow-aware C++17 packet inspection pipeline for TCP/UDP/TLS traffic across 4 concurrent Fast Path workers.
- Eliminated lock contention and cross-thread flow state sync via 5-tuple consistent hashing and worker-local flow tables.
- Classified HTTPS, DNS and application-layer traffic in parallel with rule-based drop/forward decisions.

Achievements

- **1st Place | Microsoft Innovate 2026 Hackathon**.
- **1st Place | Entrepreneurship Bootcamp (EBC 2.0), Bennett University; Secured Rs.50,000 Grant**.
- **1st Place | Hack Auction, Infuturum 4.0** (ACM Bennett University).
- **Top 3% Globally | GSSoC 2026 |** Ranked #1,307 out of 43,566 participants.
- Solved **700+ DSA problems** across LeetCode, GeeksforGeeks and CodeChef.

Leadership & Responsibilities

President | Dean Career Cloud, SCSET, Bennett University Feb 2026 – Present
- Leading recruiter engagement and placement-readiness programs impacting 2000+ students across SCSET.

Head of Technology | GeeksforGeeks Student Chapter, Bennett University Nov 2025 – May 2026
- Led a 15-member team running 5+ workshops and 2 DSA contests for 1000+ students.

Mentor | GSSoC 2026, AI Agents Track May 2026 – Jul 2026
- Mentored open-source contributors on PR reviews and Git workflows.
